 - Trash
- Literature Repository
- Projects
- References
- Miscellaneous

Whenever you store a new PDF in your Literature Repository, or create an annotation in one of your existing PDFs, the new PDF or annotation will be listed here in the Incoming Map. The Incoming Map is updated when you click the refresh-icon on the root-node or select **Monitoring -> Re-read monitoring folder** from the menu. On a refresh, any PDF and any annotation that is not listed in at least one of the other mind maps contained in the Library will be listed here in the Incoming map.

You should not use this map for organizing your PDFs and annotations but move entries from this map to the Literature & Annotations Map (again, the Incoming Map is only intended for displaying new PDFs and annotations).

To delete this node, select it and press DEL on your keyboard

Incoming
(Press icon to refresh)

Example
(Press DEL on your keyboard to delete this node and its subnodes)

Docear -- An Academic Literature Suite.pdf

- Components of Docear
 - Digital Library
 - Research Module
 - PDF Viewer
 - Mind Mapping
 - Word Processor
 - Reference Manager
 - Import/Export Filter
- Description of Docear's general concept

these PDF bookmarks are not yet in any other mind map. You could move them now to the Literature & Annotations Map

joeran2 (connected)

Map Version: docear 1.0 Map was automatically saved (using the file name C:\Users\admin\AppData\Roaming\Docear\backup\incoming.mm.725946332.1.autosave)...
